

HOMEDICS®

UV-CLEAN

DEFINING A NEW
STANDARD OF CLEAN

THE CONCERN FOR CLEANLINESS

Consumers are becoming more engaged in their personal health than ever before—and are spending **billions of dollars** to counteract bacteria, germs, and viruses.

HOUSEHOLD
CLEANERS

SOAPS &
DISINFECTANTS

HAND SANITIZERS & WIPES

THE OVERLOOKED HEALTH RISK

A CELL PHONE IS 18x DIRTIER THAN A PUBLIC RESTROOM

Roughly **265 million cell phones** are in use in the United States. **96% of Americans** own a cell phone and touch their phone screens an average of **80 times per day**, never once thinking about washing their phones. If your phone isn't clean, your hands won't be either.

It's never been easy to wash what traditionally could not be washed—until now.

WE ARE PROUD TO INTRODUCE UV-CLEAN

POWERFUL
Our revolutionary **UV-Clean** kills up to 99.9% of bacteria and viruses*

FAST
UV-Clean is the fastest solution on the market with an industry-leading 1-minute sanitization cycle

SAFE
Free of mercury and chemicals

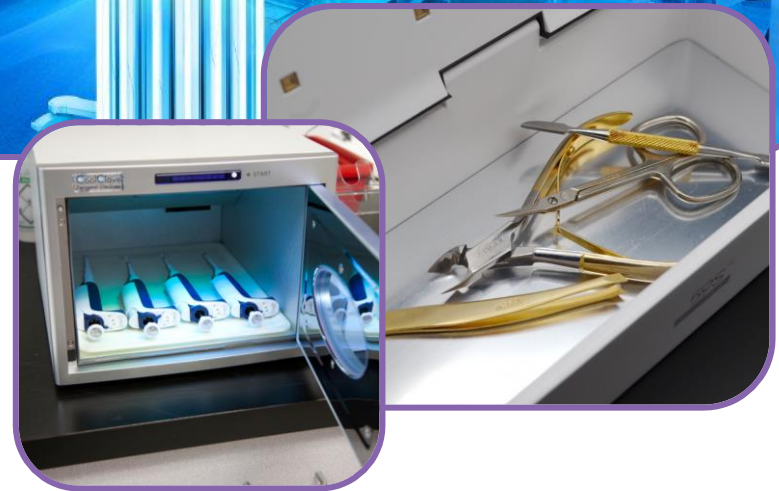

KILLS UP TO
99.9%
VIRUSES
+ BACTERIA*

*Per independent third-party test results

UV-C LED TECHNOLOGY

UV-C LED Technology is utilized in hospitals and salons to sterilize medical and beauty tools.

Our sterilizing UV-C LED Technology breaks down bacteria and viruses at the DNA level to reduce the risk of contact with household germs.
