## Wireless Motion Sensor

Let your presence bring your home to life. Eve Motion detects movement, allowing you to automatically set scenes and control your connected accessories when you enter or exit a room.

Taking advantage of Apple's revolutionary HomeKit technology, Eve offers unparalleled ease of use, advanced security, and tight integration with Siri.

Eve Motion connects directly to your iPhone or iPad using Bluetooth low energy technology, without requiring a hub, gateway or bridge.

### About Eve

The Eve family of HomeKit-enabled accessories gathers data on air quality, temperature, humidity, air pressure, energy consumption, and more.

Gain insights that help you improve your comfort, and make your home a smarter place. Use the free Eve app to view all data collected by Eve and control all accessories featuring HomeKit technology.

### Supported Devices

Eve requires an iPhone, iPad, or iPod touch with iOS 9.3 or later. Automation requires a fourth-generation Apple TV with tvOS 10 or later. Controlling HomeKit-enabled accessories away from home requires a third-generation Apple TV with Apple TV software 7.2.1 or later, or a fourth-generation Apple TV with tvOS 9.2 or later, and an iPhone, iPad, or iPod touch with iOS 9.3 or later. Note: iPad 2 is not supported.

### Technical Specifications

#### Operating Range

- Field of view: 120°
- Distance: 9 m / 30 ft. max at 2 m / 6.5 ft. mounting height
- Operating temperature: -18°C to +55°C (: 0°F - 130°F)
- IPX 3 Certified

#### Power

- 2 x AA Replaceable Batteries

#### Wireless Connection

- Bluetooth 4.0 low energy

#### Dimensions

- 80 x 80 x 32 mm
