GENTLY FALL ASLEEP. SLEEP DEEPLY. AWAKE REFRESHED.

Mediflow pillows demonstrably raise the quality of sleep and help with neck pains.¹

Nothing refreshes the body and spirit more than a good, deep sleep. And the original waterbase pillow from Mediflow combines the therapeutic advantages of the water cushion principle with the luxurious comfort of a high-quality, hypo-allergenic fibre and feather pillow.

The unique, patented water-core design supports the neck and head, and independently forms to the sleeping position.

Using the amount of filling, you can infinitely regulate the firmness and degree of support offered by your pillow.

A cushion of hypo-allergenic polyester fibres encloses the water layer

Thermal insulation prevents heat loss

An easy-to-fill water chamber lets you adjust the firmness and support effect

MEDIFLOW - THE TEST WINNER! RATED IN A CLINICAL TRIAL AS THE BEST PILLOW IN THE FOLLOWING CATEGORIES

- How quickly the patient falls asleep
- How rarely the patient wakes up
- Feeling of the sleep quality in comparison with a normal night's sleep
- **Overall sleep quality**
- **Reduction in neck pain**

¹ **Clinical study at the Johns Hopkins Hospital regarding neck pain and sleep quality:** The right choice of pillow can significantly reduce neck pain and improve the sleep quality. (Published in the Archives of Physical Medicine and Rehabilitation - Volume 78)
